Independent Auditor's Report

To the Board of Trustees Salmon River Joint School District No. 243 Riggins, Idaho

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of **Salmon River Joint School District No. 243**, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the **Salmon River Joint School District No. 243**, as of June 30, 2013, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 28–30 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has not presented a management's discussion and analysis that governmental accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of revenues by source and expenditures by object and the combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of revenues by source and expenditures by object and the combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying

accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of revenues by source and expenditures by object and the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 26, 2013, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering **Salmon River Joint School District No. 243's** internal control over financial reporting and compliance.

Notes to Financial Statements For the Year Ended June 30, 2013

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Salmon River Joint School District No. 243 (the "District") is governed by the School District Board of Education (the "Board"), which has responsibility and control over all activities related to public school education within the District. The District receives funding from local, state, and federal government sources and must comply with all of the requirements of these funding source entities. However, the District is not included in any other governmental reporting entity as defined by generally accepted accounting principles. Board members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and the primary accountability for fiscal matters. In addition, the District's reporting entity does not contain any component units as defined in Governmental Accounting Standards.

B. Basis of Presentation, Basis of Accounting

Basis of Presentation

District-wide Statements: The Statement of Net Position and the Statement of Activities display information about the financial activities of the overall District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities.

- Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function.
- Indirect expenses—expenses of the District related to the administration and support of the District's programs, such as personnel and accounting—are not allocated to programs.
- Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes and state formula aid, are presented as general revenues.

Notes to Financial Statements For the Year Ended June 30, 2013

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Financial Statements: The fund financial statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category—governmental and fiduciary—are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

- General fund. This is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.
- Forest fund. This fund accounts for the resources accumulated and expenditures made in the forest funds.
- Capital Projects fund. This fund accounts for the resources accumulated and expenditures made for capital projects.

The District reports the following fiduciary fund types:

- Private-Purpose Trust funds. These funds report a trust arrangement under which principal and income benefit a college scholarship program.
- Agency funds. These funds account for assets held by the District as an agent for various student groups and clubs.

Basis of Accounting

The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Notes to Financial Statements For the Year Ended June 30, 2013

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, and claims and judgments, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities and acquisitions under capital leases are reported as other financing sources.

C. <u>Assets and Liabilities</u>

Cash Equivalents

The District requires all cash belonging to the District to be placed in custody of the Clerk/Business Manager. A "Pooled Cash" concept is therefore used in maintaining the cash and investment accounts in the accounting records. Under this method, all cash is pooled for investment purposes and each fund has equity in the pooled amount. All amounts included in the pooled cash and investment accounts are considered to be cash and cash equivalents. See Note 2.

Property Tax Calendar

The District levies its real property taxes through the county by the 2nd Monday in September of each year based upon the assessed valuation as of the previous July 1. Property taxes are due in two installments on December 20 and June 20 and are considered delinquent on January 1 and July 1, at which time the property is subject to lien.

Capital Assets

Capital assets are reported at actual or estimated historical cost based on appraisals or deflated current replacement cost. Contributed assets are reported at estimated fair value at the time received.

Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements are shown below:

Notes to Financial Statements For the Year Ended June 30, 2013

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

	Capitalization	Depreciation	Estimated
	Policy	Method	<u>Useful Life</u>
Buildings and Improvements	\$5,000	Straight-Line	15 – 40 Years
Equipment and Buses	\$5,000	Straight-Line	5 – 15 Years

Depreciation is used to allocate the actual or estimated historical cost of all capital assets over their estimated useful lives.

The District is a Phase Three entity and is not required to report infrastructure acquired prior to June 30, 1980, and has not acquired or constructed any since that time.

Compensated Absences

The District provides sick leave and vacation to the full time non-certified employees. The estimated amount of compensation for further amounts is believed to be immaterial and accordingly no liability has been recorded.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Fund Balance Reporting for Governmental Funds

Different measurement focuses and bases of accounting are used in the government-wide Statement of Net Position and in the governmental fund Balance Sheet. The District uses the following fund balance categories in the governmental fund Balance Sheet:

- Restricted. Balances constrained to a specific purpose by enabling legislation, external parties, or constitutional provisions.
- Unassigned. Balances available for any purpose.

The remaining fund balance classifications (nonspendable, committed, and assigned) are either not applicable or no formal policy has yet been established to be able to utilize such classifications of fund balance. However, if there had been committed funds, these amounts would have been decided by the Board of

Notes to Financial Statements For the Year Ended June 30, 2013

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Trustees, the District's highest level of decision making authority, through a formal action. The Board of Trustees would also have the authority to assign funds or authorize another official to do so.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted resources available to finance the program. When both restricted and unrestricted resources are available for use, it is the government's intent to use restricted resources first, then unrestricted resources as they are needed.

There is also no formal policy regarding the use of committed, assigned, or unassigned fund balances. However, it is the District's intent that when an expenditure is incurred for purposes for which amounts in any of the unrestricted classifications of fund balance could be used, the District considers committed amounts to be reduced first, followed by assigned amounts, and then unassigned amounts.

All special revenue funds are restricted by the federal government and must be spent according to the stipulations of the corresponding federal program. The State of Idaho requires that capital projects be accounted for in their own fund and, therefore, the capital projects fund is also restricted.

CASH DEPOSITS AND INVESTMENTS

Summary of Deposit and Investment Balances

The District maintains a cash and investment pool for use by all funds. The District also had \$1,024 in petty cash.

Deposits

As of June 30, 2013, the carrying amount of the District's deposits was \$889,919 and the respective bank balances totaled \$891,085. \$250,000 of the total bank balance was insured or collateralized with pooled securities held by the pledging financial institution in the name of the District.

Notes to Financial Statements For the Year Ended June 30, 2013

2. CASH DEPOSITS AND INVESTMENTS (continued)

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned. As of June 30, 2013, \$641,085 the District's deposits were not covered by the federal depository insurance or by collateral held by the District's agent or pledging financial institution's trust department or agent in the name of the District, and thus were exposed to custodial credit risk. The District does not have a formal policy limiting its exposure to custodial credit risk.

Custodial Credit Risk - Investments

Custodial credit risk is the risk that an issuer or other counter party to an investment will not fulfill its obligations. The District does not have a formal policy limiting its custodial credit risk for investments.

Interest Rate Risk

The District does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses from increasing interest rates.

Investments

The District voluntarily participates in the State of Idaho Investment Pool which has not been rated. The pool is not registered with the Securities and Exchange Commission or any other regulatory body. Oversight of the pool is with the State Treasurer, and Idaho Code defines allowable investments. The fair value of the District's investment in the pool is the same as the value of the pool shares.

The District follows Idaho Statute that outlines qualifying investment options as follows:

Idaho Code authorizes the District to invest any available funds in obligations issued or guaranteed by the United States Treasury, the State of Idaho, local Idaho municipalities and taxing districts, the Farm Credit System, or Idaho public corporations, as well as time deposit accounts and repurchase agreements.

The District's investments at June 30, 2013, are summarized below:

		Investment Maturities (in Years					
Investment	Fair Value	Les	ss Than 1		1-5		
External Investment Pool	\$ 248,797	\$	248,797	\$		0	

Notes to Financial Statements For the Year Ended June 30, 2013

2. CASH DEPOSITS AND INVESTMENTS (continued)

At year-end, cash and investments were reported in the basic financial statements in the following categories:

	Go	overnmental	Fiduciary		
		Activities	Funds		Total
Cash and cash equivalents	\$	853,435	\$ 37,508	\$	890,943
Investments categorized as deposits		243,513	5,284		248,797
	\$	1,096,948	\$ 42,792	\$ 1	1,139,740

3. RECEIVABLES - LOCAL SOURCES AND DEFERRED REVENUE

The District receives tax revenue from Adams and Idaho Counties. The counties are responsible for property valuation and collection of tax levies. The taxes that have not been remitted to the District by the county as of June 30, 2013, are considered by the District as a receivable.

Taxes not collected within 60 days after June 30, 2013, are not considered available for use by the District and are recorded as deferred revenue in the fund financial statements.

4. RECEIVABLE - INTERGOVERNMENTAL

Intergovernmental amounts due consist of \$29,623 from the State of Idaho for state support, and \$69,951 due from federal programs passed-through the State of Idaho for a total due of \$99,574. The total amount is considered collectible.

5. SALARIES AND BENEFITS PAYABLE

The District follows the practice of paying contracted salaries and related benefits over a 12-month period which differs from the 9-month earned school-year period which runs from approximately September 1 to May 31 of each year. Teacher contracts payable, as reflected at June 30, 2013, represent amounts unpaid at that date on teacher contracts and related benefits. Since the amount of salaries and related benefits due to teachers are pertinent to the school year, such amounts have been accrued as salaries payable and related liabilities in the governmental fund types of the District with related expenditures recorded in the current fiscal year's operations.

Notes to Financial Statements For the Year Ended June 30, 2013

6. CONTINGENT LIABILITIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, and the District expects such amounts, if any, to be immaterial.

7. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2013, was as follows:

Governmental Activities: Capital Assets Not Being Depreciate	6/	alance 30/2012	<u>A</u>	dditions	Dispos	als_		alance 30/2013

	34,009

Notes to Financial Statements For the Year Ended June 30, 2013

8. INTERFUND BALANCES

Balances due to/from other funds at June 30, 2013, consist of the following:

Due to the General fund from other nonmajor governmental funds \$11,465 representing cash overdrafts.

9. TRANSFERS TO/FROM OTHER FUNDS

Transfers between funds during the year occurred as follows:

\$ 15,503 From the General fund to the Capital Projects fund for bus depreciation. From the General fund to nonmajor governmental funds to cover prior year deficits.

From nonmajor governmental funds to nonmjaor governmental funds to 5,118 cover prior year deficits.

\$ 20,890

10. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omission; injuries to employees; and natural disasters. The District has transferred most of its risk by purchasing commercial insurance.

Workman's Compensation insurance is purchased though the Idaho State Insurance Fund. Employee health and accident insurance is purchased through Blue Cross of Idaho. All other insurance has been purchased through Fred A. Moreton and Company.

11. PENSION PLAN

Public Employee Retirement System of Idaho (PERSI) - The PERSI Base Plan, a cost sharing multiple-employer public retirement system, was created by the Idaho State Legislature. It is a defined benefit plan requiring that both the member and the employer contribute. The Plan provides benefits based on members' years of service, age, and compensation. In addition, benefits are provided for disability, death, and survivors of eligible members or beneficiaries. The authority to establish and amend benefit provisions is established in Idaho Code. Designed as a mandatory system for eligible state and school district employees, the legislation provided for other political

Notes to Financial Statements For the Year Ended June 30, 2013

11. PENSION PLAN (continued)

subdivisions to participate by contractual agreement with PERSI. After five years of credited service, members become fully vested in retirement benefits earned to date. Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. For each month of credited service, the annual service retirement allowance is 2.0% (2.3% police/firefighter) of the average monthly salary for the highest consecutive 42 months.

PERSI issues publicly available stand alone financial reports that include audited financial statements and required supplementary information. These reports may be obtained from PERSI's website www.persi.idaho.gov.

The actuarially determined contribution requirements of the District and its employees are established and may be amended by the PERSI Board of Trustees. For the year ended June 30, 2013, the required contribution rate as a percentage of covered payrolls for members was 6.23% for general members and 7.69% for police/firefighters. The employer rate as a percentage of covered payroll was 10.39% for general members and 10.73% for police/firefighter members. The District employer contributions required and paid were \$106,506, \$105,921, and \$108,659 for the three years ended June 30, 2013, 2012, and 2011, respectively.

12. COMPENSATED ABSENCES

Vacation leave is granted to all classified and administrative employees of the District. In the event of termination, an employee is reimbursed for accumulated vacation leave up to 30 days. Up to 30 days may carry over at the end of each year. Changes in compensated absences for the year ended June 30, 2013, are as follows:

	6/30/2012		Increase		Decrease		6/30/2013		Current	
Governmental Activities	\$	4,677	\$	9,111	\$ ((2,717)	\$ 1	1,071	\$	2,717

13. LEASE COMMITMENTS

The District leases copy machines located throughout the District. The lease periods are for four to five years and it is anticipated that the copiers will be returned at the end of the lease periods, which are at various times.

Notes to Financial Statements For the Year Ended June 30, 2013

13. LEASE COMMITMENTS (continued)

Future minimum lease payments are as follows:

Year Ending		
June 30,	A	mount
2014	\$	2,084
2015		1,786
	\$	3,870

Rent expenditures for the year ended June 30, 2013, were \$4,687.

14. OTHER COMMITMENTS

The District has credit cards with a total credit limit of \$10,000. As of June 30, 2013, \$3,881 of that credit was available.

15. DEFICIT FUND BALANCE

The following nonmajor funds reported deficit fund balances as of June 30, 2013:

• Title I \$1,476

Notes to Required Supplementary Information For the Year Ended June 30, 2013

BUDGETS AND BUDGETARY ACCOUNTING

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- A. Prior to June 1, the Superintendent and Board of Trustees prepare a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
- B. Public hearings are conducted to obtain taxpayer comments.
- C. Prior to July 1, the budget is legally enacted through passage at a board meeting.
- D. Formal budgetary integration is employed as a management control device during the year for all the funds.
- E. Budgets for the governmental funds are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- F. Budgeted amounts are as originally adopted or amended by the Board of Trustees.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

To the Board of Trustees Salmon River Joint School District No. 243 Riggins, Idaho

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of **Salmon River Joint School District No. 243**, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated August 26, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
